*Today's Youth
The World's
For A Better*

Living in a challenging revolutionary age is different in many respects from anything man has ever known. The area in which we are living today may well be characterized as one of progress and achievement. The future welfare and safety of our country greatly depends on the youth of today. The extent to which today's youth will determine the degree of tomorrow's happiness.

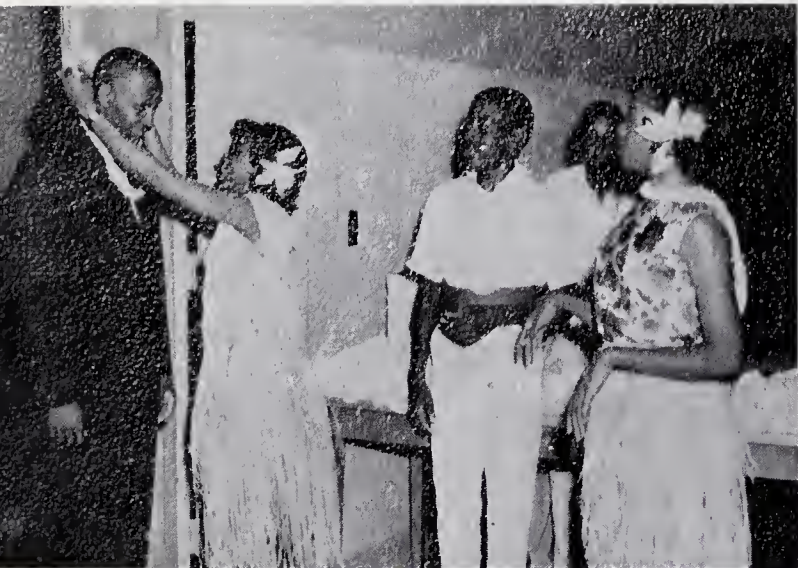

Knowledge and ability which we are constantly gaining are the very important factors. Freedom and peace which the world can be

maintained only by a better understanding of the people. We can
neither destroy the reputation that good and noble men have built
nor do our share in building the esteem of others.

J. T. Fisher has contributed many opportunities which will be
carried on throughout life. Fellowship, guidance, and integrity,
maintained during our high school years, have prepared us for a
very successful tomorrow.

The J. T. Barber High School Warriors ended the season with a record of three losses and six victories. Too many, this one sentence would express the entire season, but there are many things - some of an intangible nature - that make up a football season. To many fans, winning means simply getting the highest score, and the true purpose of sports is lost entirely by these fans. If a team plays hard and fairly, if it does the best it can and learns from mistakes, if every player has his heart in the game and feels like a part of the team whether he sits on a bench or not, then and only then will it be a "winning team."
